

# TMC 7000

integrated Handy POS tablet by AURES

## 7" Mobile POS

*This 7" Mobile POS offers stylish exclusive design, high performance and low power consumption; it is an ideal tablet in all points of service, especially in the catering and hospitality environments, where its light weight and compact dimensions will optimise its many functionalities.*

Available with 2 types of anti-fall straps, it will be your mobility best partner on the POS.

This ruggedized POS tablet is designed specifically for point of service use, and especially the catering and hospitality sectors.

Available in 7" sleek LCD, the **TMC 7000** is very light weight but retail hardened, and can be dropped from up to four feet.

Additionally, the Intel Atom CPU enables the device to support Windows 10 IoT Enterprise allowing effortlessly handled CPU heavy applications.

The Quad Core fanless processor allows for ultra-low power consumption and quick speed.

A 4 or 8 hour battery life allows for use with no recharging made necessary.

The TMC 7000 features WIFI, Bluetooth and NFC; 2D Barcode, MSR and smart card readers are an option.
