

## INFORMATION PRESSE

### ***The AURES Group announces the acquisition of the US company RETAIL TECHNOLOGY GROUP Inc.***

Lisses, Runcorn - October 2018 ; the **AURES Group** has acquired 100% of the shares of the American company **RETAIL TECHNOLOGY GROUP Inc** (RTG) on October 16, 2018.

RTG is not only one of the main US providers in terms of services, maintenance and support in the field of POS solutions and equipment, but above all the only one to propose a complete offer - from installation to help desk and hotline - for the POS hardware but also for the software platforms.

The Company provides tailored services to chains of at least 500 points of service, and manages a portfolio of more than 30,000 sites; it employs over 350 people and generated revenues of approximately US\$40 million in its last fiscal year.

#### **A strategic operation for the AURES Group**

This external growth operation allows AURES to add to its hardware solutions offer a complete range of associated services to meet the requirements of major retailers on the US market. The Group thus confirms its desire to accelerate its presence in the United States and eventually become, as is already the case in Europe, one of the major players in its sector across the Atlantic.

"I am delighted with this acquisition," said **Patrick CATHALA**, CEO and Founder of the Group, after this acquisition; "after five years of very strong corporate growth, it opens up new development opportunities for us, especially in the world's largest POS market, the USA."

## About AURES Technologies - [www.ares.com](http://www.ares.com)

Founded in 1989 and listed on Euronext since 1999, the AURES Group is an IT manufacturer of complete ranges of hardware solutions for the POS (point of sale and point of service, including catering and hospitality businesses) and the Integration sectors (Kiosk and OEM products).

The systems designed and developed by the Group are intended for IT management, till functions and digital marketing at the POS (supply of EPOS touch systems, professional tablets and mobile POS, Retail PCs and Panel PCs, screens and monitors for digital and multimedia displays, interactive kiosks...).

With corporate sales of €85.6 million for 2017, AURES has global presence, with its head office in France, subsidiaries in the UK, Germany, Australia and the USA - and a network of distributors and resellers in 75+ countries.
